18th December 1923.

Dear Mr. Cadambi,

I am returning the design for the parapet wall of the Dam, which you kindly sent me with your letter of the 14th instant.

I agree with you that the design already approved might not suit. In the sketch which you have now sent, you have got round arches. I should substitute parabolic arches for them, and also make the top parapet wall look more solid and substantial by increasing the size of the intervening blocks, and having more of them as I have indicated in the sketch, something like what they are having round the statue in Lalbagh.

There are many other ideas. Let us consult Mr. Rangaiah and also Mr. Ayyangarasappa, and see what they have to say.

Yours sincerely,
